VASE Dynabass 200 Combo Bass Amplifier

Modern Design 200 Watt Class D Amplifier with 3 Band Tone Stack

\$1,395.00

The VASE Dynabass 200 is a powerful and portable combo bass instrument amplifier using state of the art electronic technology to provide the traditional physical appearance and sound qualities of the instrument amplifiers of yesteryear. Utilizing the combination of a low noise JFET Preamplifier, a 3 Band Passive Tone Stack and an ultra efficient 200 Watt Class D Power Amplifier, the Dynabass 200 Combo offers the discerning bass musician a wide range of tonal textures to enhance any style of playing technique.

The unique design of the preamplifier section coupled to the high-power amplifier delivers an extremely fast transient response which many players prefer over the more conventional tube designed amplifiers.

The 15" extended range Celestion Bass Loudspeaker reproduces every nuance of the artist and instrument to perfection.

The VASE Dynabass 200 combines unique tonal characteristics with the legendary robust VASE build quality resulting in an instrument amplifier equally at home on stage or in the studio.

Dynabass 200 Combo

Specifications:

Instrument Inputs	Low and High Gain Inputs to suit active and passive basses	Standard finish	Black textured AcoustiCoate elastomer finish. Black Grille Cloth
Controls	Bright Switch, 3 Band Passive Tone Stack & Master Volume	Optional Vinyl Colours	Black Stump, Full Cream, True Blue, Great White
Output Power	200 Watts RMS	Grille Cloth Options	Black, Silver, Vintage, Heritage
Loudspeaker	15" Celestion Bass Speaker	Overall Dimensions	485mm(W) x 365mm(D) x 565mm(H) including feet
Overdrive Character	The power amplifier features a Soft Limit circuit that shapes the preamplifier signal eliminating saturation/clip in high level situations	Weight	23 Kgs
Construction	1.6mm steel chassis. Black powder coat finish. 18mm ply cabinet fitted with handles & rubber feet.
