VASE Trendsetter 60 Deluxe Guitar Amplifier **\$2,995.00**
Twin Channel 60 Watt Valve Guitar Amplifier Head

The VASE Trendsetter 60 Deluxe guitar amplifier represents all that Tony Troughton and the original VASE team stood for from the 1960's - 1980's. These amplifiers strive to capture as closely as possible the way these iconic Australian amplifiers would have been manufactured were Tony still alive today. However, unlike other "reissue" amplifiers, we have also incorporated modern cabinet design, highly reliable components and enhanced the chassis's structural integrity to produce a world-class amplifier for the modern era.

Combining rich warm low and mid tones, sparkling clean highs and a thick, powerful overdrive, the Trendsetter 60 transcends any musical genre or playings style delivering pure, classic guitar tones.

The Trendsetter 60 Deluxe is available in the four original VASE vinyl colours and four colours of grille cloth, providing sixteen custom colour combinations.

Hand-wired and constructed in Brisbane, Australia the Trendsetter 60 Deluxe continues the deep tradition for quality craftsmanship, acute attention to detail and an absolute passion for high quality musical instrument amplifiers.

Whether you are a player with nostalgic memories of how these amplifiers sounded decades ago, or are new to this Australian phenomenon and simply have a deep seated appreciation for beautiful tone, the Trendsetter 60 Deluxe is for you!
