VASE Trendsetter 60 Overdrive Guitar Amplifier **\$3,295.00**

Twin Channel 60 Watt Valve Guitar Amplifier Head

The VASE Trendsetter 60 Overdrive Guitar Amplifier is a twin channel, all valve amplifier offering a wide range of expressive guitar tones. Rich warm low and mid tones, sparkling clean highs, and a high gain harmonically rich overdrive, the Trendsetter 60 Overdrive transcends any musical genre or playing style by delivering the entire range of both classic and modern guitar tones.

The Clean Channel respects the VASE heritage and is eminently suited to producing the entire range of clean guitar sounds. The Overdrive Channel features separate Volume and Drive controls offering an expanded palette of overdriven and sustained guitar tones shaped by the highly effective Tone control.

An overall Vibrato effect provides a musically satisfying extra dimension for many playing and music styles. The Trendsetter 60 Overdrive is available in the four original VASE vinyl colours and four colours of grille cloth, providing sixteen custom colour combinations.

Hand-wired and constructed in Brisbane, Australia the Trendsetter 60 Overdrive continues the deep tradition for quality craftsmanship, acute attention to detail and an absolute passion for high quality musical instrument amplifiers. Whether you are a player with nostalgic memories of how these amplifiers sounded decades ago, or simply have a deep seated appreciation for a beautiful guitar tone with expanded capabilities, the Trendsetter 60 Overdrive is for you!
