## VASE DYNABASS 1K CLASSIC BASS HEAD AMPLIFIER

RRP: \$1695, with flight case URL: [www.vase.com.au](http://www.vase.com.au)

In the world of lightweight, high-powered bass guitar amplification, the Australian-made DynaBass really shines. Weighing in at a mere 10.5kg and pushing out an astonishing 1000watts of pure enhanced D Class power means you can rock it anywhere from a small venue to a large stadium gig. The low noise preamp and five bands of precision-tuned equalisation allow you to shape your tone to suit any style of music you are playing. To complete the package you have input muting, pre/post balanced DI output with earth lifting, effect send and return and tuner output. Since its release, a swag of prominent bass players have chosen the DynaBass and embraced it as their preferred source of power and tone. Available in your choice of True Blue, Full Cream, Black Stump or Great White vinyl or for the touring bass player, our hard wearing Black Acousticoate finish with a flight case, there really is no reason not to be rocking through this Australian-made amp.
